

Customer Information | REACH Regulation

Regulation (EC) No 1907/2006 (REACH) is the European Union Regulation on the tracking of chemicals and notification to relevant stakeholders to ensure their safe use. It deals with the Registration, Evaluation, Authorisation and Restriction of Chemical substances.

REACH requires NEC Display Solutions Europe GmbH to provide customers with sufficient information on Substances of Very High Concern (SVHC) if contained in articles or products in a concentration above 0.1% weight-by-weight. The candidate list of SVHC, which needs to be tracked, was first published on 28 October 2008 and is regularly updated.

Considering the recent version of the candidate list and the information collected throughout our supply chain these products may contain SVHC above the allowed threshold:

Projectors

Product Category	Article	Substance Name	CAS Number
Projectors	Part of a connector	Diboron trioxide; Boric oxide	1303-86-2
	Base-metal of the terminal	Lead monoxide (lead oxide)	1317-36-8
	Seal resin of IC	1,3,5,- Tris(oxiranylmethyl)- 1,3,5-triazine- 2,4,6(1H,3H,5H)-trione; TGIC	2451-62-9
	Polarizer	Boric acid is incorporated	10043-35-3

Projector Accessories & Options

Product Category	Article	Substance Name	CAS Number
None			

Safe Use & Disposal

Products shall only be used as recommended by NEC. Disposal must be in accordance with the European WEEE Directive.
